EVOKE-3

The World's Most Advanced Digital Radio

From the world leaders in DAB radio comes EVOKE-3, the most advanced digital radio in the world. Packed with features to make listening more pleasurable and more convenient, EVOKE-3 combines innovation with class-leading sound quality.

EVOKE-3's new features are easily accessible via an intuitive menu system and six-line graphical display. View Electronic Programme Guide listings for seven days, choose the programmes you like, set multiple record times and EVOKE-3 will record over 15 hours of radio to SD memory card.* Or play MP3s from the SD card if you prefer. And if your DAB listening is interrupted you can pause and rewind live radio using the PURE ReVu™ feature.

Truly versatile, EVOKE-3 can be used to amplify your iPod or as an input to your hi-fi and its USB connector means it's easy to upgrade too. With support for all DAB standards, plus FM with RDS for locations where DAB is not yet available, EVOKE-3 works worldwide.

*Based on typical broadcast of 128 kbps recorded to 1GB SD card (card not included).

Designed in the UK

Electronic Programme Guide

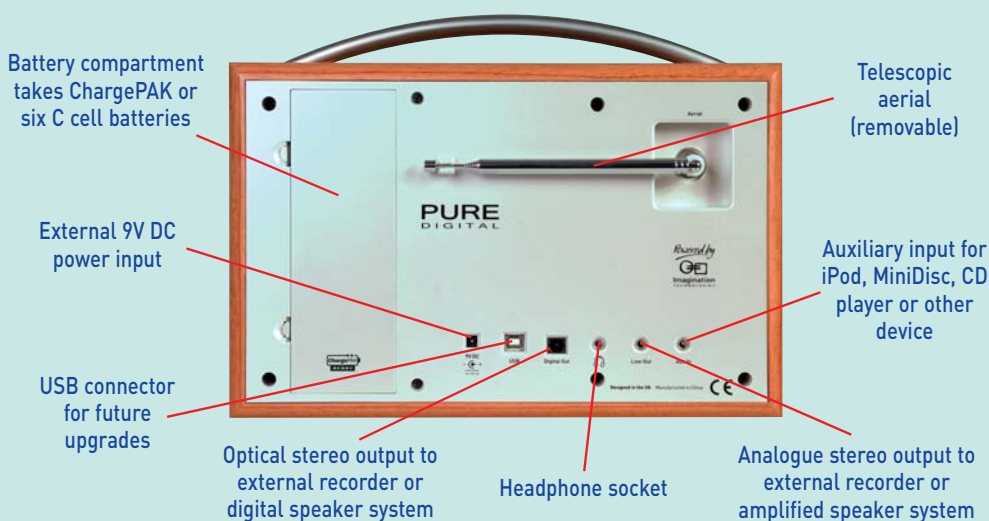

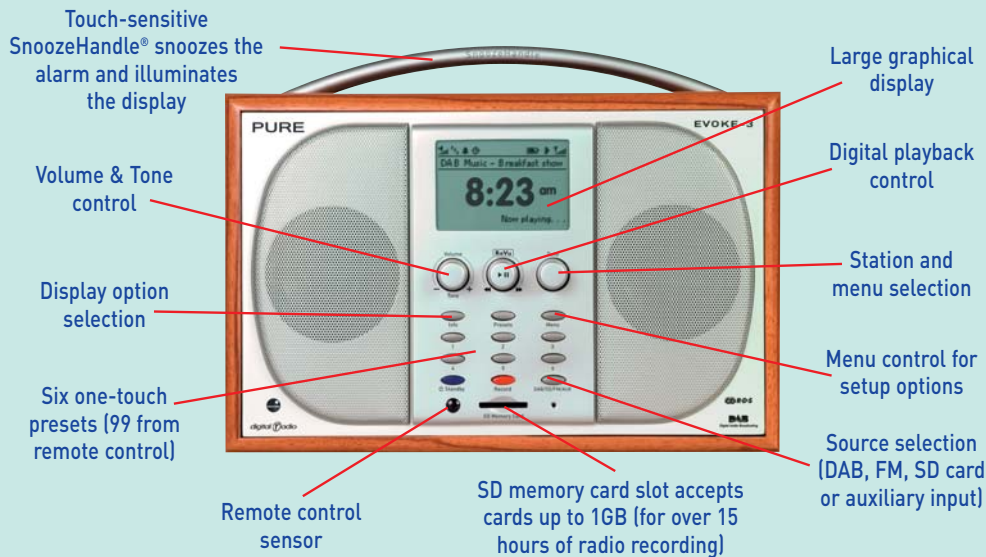

EPG, broadcast by participating DAB stations, gives programme times for up to seven days in advance. Use it to set up to 20 record timers at the touch of a button.

SD Memory Cards

Supports SD memory cards up to 1GB. Record whole radio programmes or music tracks. Play MP3s from your collection.

Bedside Features

Up to 20 alarms and a sleep timer. Unique touch-sensitive SnoozeHandle™. Fall asleep to one station and wake up to another.

CHARGEPAK™ AVAILABLE SEPARATELY

- Charges while connected to the mains
- Provides hours of ChargePAK-powered portable listening
- Easy to use – just “Fit and Forget”
- EVOKE-3 can also be used with six (standard or rechargeable) C cell batteries

ELECTRONIC PROGRAMME GUIDE

EPG (broadcast by participating DAB stations) shows programme times.

SD MEMORY CARD SUPPORT

Record programmes or music tracks. Play MP3s.

REVu™ TECHNOLOGY

Pause and rewind live DAB radio.
